SUMMARY

Web developer with 3 years of experience building user-friendly Web applications using HTML, CSS, and JavaScript, as well as ReactJS and other front-end frameworks. Skilled in collaborating with cross-functional teams, maintaining and improving code quality, and developing custom tools to improve business processes. Committed to staying up-to-date with the latest web development trends and delivering high-quality solutions.

PROFESSIONAL EXPERIENCE

Google Operations Center, Gurgaon | Senior Associate

March 2026 - Present

- Engineered custom automation scripts (using JavaScript/Google Apps Script) to streamline internal tracking and reduce manual effort.

Accenture, Gurgaon | Web Developer

July 2024 - March 2026

- Built automation projects using Apps Script, improving operational efficiency and reducing manual effort across internal teams.
- Collaborated with cross-functional teams to troubleshoot and resolve development issues, supporting smoother deployments and faster delivery.

Ballistic Learning Pvt. Ltd. | Frontend Developer

Apr 2022 - July 2024

- Built scalable and user-friendly LMS interfaces using Node, React.js, TailwindCSS, and Javascript.
- Implemented gamified learning elements, resulting in a 25% increase in user engagement.

EDUCATION

CRS State Institute of Engineering and Technology | Jhajjar, Haryana

B.Tech (CSE) | 2021

CDL Govt. Polytechnic | Sirsa, Haryana

Polytechnic (CSE) | 2018

SKILLS

HTML, CSS, JavaScript, NodeJs, MongoDB, Git, GitHub, Bootstrap, TailwindCSS, MySQL, ReactJs, Apps Script

PROJECTS

Smart GatePass & Inventory Tracking System

[Link](#)

Developed a GatePass automation web application where users can enter item dispatch details and store records in Firestore. Implemented features to view, edit, and manage historical data, auto-generate GatePass entries from invoices, and export GatePasses as downloadable PDFs for verification and print use.

ADDITIONAL CERTIFICATIONS

Google UX Design Professional Certificate

[Certification Link](#)

Learned the full UX design workflow—user research, defining pain points, wire-framing, prototyping, testing, and iterating with user-centered and accessible design principles.

Google Advanced Data Analytics Professional Certificate

[Certification Link](#)

Learned to analyze and interpret datasets using Python, SQL, and statistical techniques. Gained hands-on experience in machine learning, data visualization, and building data-driven insights for business decisions.
